Our multi functioning scaffolding materials and engineering skills in scaffolding applications, meets all the superior values of technical perfectionism and quality standards.

Ensuring extensive superiority of entire scaffolding materials, confirm the whole range of frame scaffolding, system scaffolding, forming systems, shoring systems, scaffolding accessories, plants and decking. We possess one of the major material artifacts of scaffolding, shoring and forming products in the UAE.

We also emphasize on the versatility and durability of our scaffolding frames ensuring compatibility and easiness in erecting and dismantling.

HEALTH & SAFETY POLICY

We are committed to provide a consistently high standard of safety throughout every work place.

It is the policy of Well Certified Scaffolding to manage its activities without causing unnecessary risks to the health and safety of its employees, customers and members of the public who may be affected by its' activities. It also recognizes the responsibility of other persons when they are on its' premises.

The management of Well Certified Scaffolding are committed to ensuring the health and safety of all their employees at work site. This commitment extends to the provision of the human and material resources necessary for the proper discharge of their own statutory duties and for the proper discharge of the duties and responsibilities of their managers, supervisors and workforce in connection with health and safety at work

The directors of Well Certified Scaffolding expect that all employees will act in a responsible manner and fully co-operate in the implementation of the company health & safety policy and ensuring that safe working practice is an integral part of each and every task.

OBJECTIVE

The Safety Policy of Well Certified Scaffolding is designed to comply with the Standards of the Occupational Safety and Health Administration, and to endeavor to maintain a safe and injury/illness free workplace. A copy of the OSHA Safety and Health Standards 1926 and 1910 are available for all employees use and reference. These standards shall be available in the home & office at all times and will be sent to the worksite on request.

Compliance with the following Safety Policy and items and all items are mandatory for all employees in the company. The authorization and responsibility for enforcement has been given primarily to the Safety Supervisor, and the Safety Manager will share this responsibility as well.

POLICY

It is company policy that accident prevention is a prime concern of all employees. This includes the safety and well-being of our employees, subcontractors and customers, as well as the prevention of wasteful, inefficient operations and damage to property and equipment.

APPLICABILITY

This Safety Policy applies to all employees of Well Certified Scaffolding, regardless of position within the company. The Safety rules contained herein apply to all subcontractors and anyone who is on a company project site.

Every employee is expected to comply with the Safety Policy, as well as OSHA Health and Safety Standards.

IMPLEMENTATION

This Safety Policy supports six fundamental means of maximum employee involvement:

- A. Management commitment to safety
- B. Weekly tool box safety meeting at all job sites.
- C. Effective job safety training for all categories of employees.
- D. Job hazard analysis provides to all employees.

This policy will be reviewed on an annual basis and updated as necessary.

SAFETY

At Well Certified Scaffolding, we have committed the resources necessary to train our employees, making them aware of potential hazards and equipping them with the safety equipment necessary to complete each job safely. We are committed to educating our employees through an ongoing safety program and annual refresher courses to keep our employees updated with the latest developments in our industry. Our team supervisors are trained in first aid & confined space. The team supervisor will coordinate with the customer to achieve special safety or regulatory requirements. We regularly monitor our customer's safety requirements to meet or exceed them.

- **Ongoing course instruction**
- **All employees trained in First-Aid & confined space, fire**
- **Confined Space Rescue Training**
- **Fully insured and certified**

Today, knowledge of health & safety issues, government regulations, filing deadlines and the requirements of the many regulatory agencies is very important. Well Certified Scaffolding stays current with the regulations pertaining to the industry.
